

Corporate Social Responsibility (CSR) Statement

Company: Alimentos Liofilizados NATUR S.R.L. – Bolivia, May 6th 2026.

To whom it may concern,

This statement serves to formalize the commitment of **Alimentos Liofilizados NATUR S.R.L.** to the principles of Corporate Social Responsibility (CSR), ethical trade, and sustainable production. While our portfolio includes both organic and conventional products, such as freeze-dried pineapple and banana, our operational standards remain uniform across all processing lines, ensuring social and environmental integrity.

Historical Foundations and Certifications

NATUR S.R.L. has a documented history of compliance with international ethical standards. We previously held the **FAIR TRADE** certification, which established the foundational internal protocols for our procurement and labor practices. Although we have transitioned from formal renewal of this specific seal to optimize operational costs for our clients, the core "Fair Trade" practices remain fully integrated into our daily management and supply chain operations.

Institutional Partnership with the Netherlands Enterprise Agency (RVO)

Since its inception in 2013, NATUR S.R.L. was established as a strategic project linked to the **Netherlands Enterprise Agency (RVO)** under the **Private Sector Investment (PSI)** program. This partnership involved rigorous oversight and adherence to high-level international standards:

- **Regulatory Framework:** Our operations were structured according to the RVO Corporate Social Responsibility requirements, which align with the UN Guiding Principles on Business and Human Rights and OECD Guidelines.
- **Audit History:** From 2013 until 2021, NATUR was subject to annual external audits conducted by RVO-appointed experts. These audits verified our compliance in areas including fair labor compensation, workplace safety, environmental impact mitigation, and ethical relationships with small-scale fruit providers.
- **Continuous Compliance:** NATUR successfully passed all audits throughout the program duration, demonstrating a consistent track record of social responsibility.

Reference Standards - For further verification of the CSR requirements that govern our institutional framework, please refer to the official RVO documentation: [PSI Corporate Social Responsibility Framework](#).

Current Commitment

We assure our clients that all products manufactured by NATUR S.R.L., regardless of their organic certification status, are produced under the same rigorous ethical standards validated by years of international cooperation and auditing. We remain committed to fostering a sustainable ecosystem for our employees, suppliers, and the community in Santa Cruz de la Sierra. Sincerely,

André Luiz Naprávník
